
International Association for Cognitive Education and Psychology (IACEP)

The international conference of the International association of the cognitive education and psychology focuses on the dynamic diagnostics and the intervention in the field of developing the cognitive functions. Its goal is to turn the theoretical acknowledgements into practice. The conference is held by the European and the Near East section of the Association, in cooperation with the Faculties of Education and Faculty of Arts of the Charles University respectively. Among the chief speakers of the conference are Professor Alex Konzulin (The Feuerstein Institute, Israel), Docent Gabriela Seidlova Malkova (PedF UK, FHS UK, Czechia) and Professor Alexander Minnaert (Groningen University, the Netherlands).
