
The students' exhibition My street

The students' exhibition My street revolves around inter-media synergy of the graphic design, illustration and installation art. The result of this half-year lasting work of the students is an author book concerning the My street topic. The students approach the book individually, however it is not the only part of the exhibition. It comes with a major number of drawing materials (drawings, drafts, frotters) and posters inviting you to the books' respective premiere events. The books were created by the students during the seminar. As a result, a unique collage of different approaches and methods towards the subject were developed.
