
11th World Environmental Education Congress

11th World Environmental Education Congress

We invite you to the 11th World Environmental Education Congress (WEEC) in Prague, Czech Republic.

The 11th WEEC is about BUILDING BRIDGES: between different approaches to environmental education and education for sustainable development, across international boundaries, between formal, nonformal, informal, and community education, and between researchers and practitioners around the world.

We know that many people still struggle with the uncertainty of the COVID situation in their countries and need more time planning. In light of this, we have decided to postpone the upcoming deadlines: **early bird registration to October 1st** and **abstract submission to November 30th**.

We hope that more time makes congress more available for the world environmental and sustainability education community. We are looking forward to seeing you!

We are looking for volunteers from the students of the Faculty of Education, Charles University for this event. For more information, write to pr@pedf.cuni.cz.
