
4EU+ Course: Quantum Mechanics from Condensed Matter to Computing

4EU+ Course: Quantum Mechanics from Condensed Matter to Computing

New 4EU+ blended course given by the University of Copenhagen, University of Milan and University of Warsaw targets Master students and PhD students of mathematics, physics and computer science.

Target groups

Master students and PhD students. The course is open to all interested students, also students outside the 4EU+ Alliance. Travel grants are, however, only available to students from within the alliance.

Schedule

The course will consist of three phases.

Phase 1: March 1- May 13, 2022: Online lectures (approximately one two hour lectures every other week, in total 6 lectures)

Phase 2: May 13- June 13, 2022: Students work on assignments which will be presented at a poster session at the physical meeting.

Phase 3: June 13 -June 17, 2022: Physical Master Class (Approximately 24 hours of lectures plus 5 hours exercises)

Registration

Registration deadline: **1 March 2022.**
