KARLOVA

Course offer: Childbirth and the Pelvic Floor

Professor Khaled Ismail

MBBCh, MSc, MD, PhD

Professor of Obstetrics and Gynaecology
Charles University, Czech Republic

Overview

This is a practical training course that includes both theoretical and video components focused on the prevention, diagnosis & management of perineal trauma and pelvic floor at the time of childbirth. Professor Ismail is internationally recognised for his research and expertise in the field and have been involved in delivering hands on training in perineal trauma management in more than 20 countries. The course is suitable for professionals involved in women's health and maternity care including obstetricians and gynaecologists, midwives, physiotherapists, colorectal surgeons.

Learning outcomes: At the end of this course, candidates will

- Recognise evidence based interventions for the prevention of perineal trauma
- Be able to counsel women about their individualised risk of pelvic floor problems
- Understand how to perform an effective manual perineal support technique
- Perform the continuous technique for episiotomy and second-degree tears repair
- Undertake end-to-end & overlap repairs of obstetric Anal Sphincter injuries (OASIs)
- Appreciate barriers and facilitators to implementation of evidence into practice

Hours and sessions:

The course will be delivered online over a total of 16 hours (4 Modules, 2 hours each) in English.

Dates:

- Tuesday 1st of March, 2022: 10:00 – 12:00, 13:00 – 15:00
- Wednesday 2nd of March, 2022: 10:00 – 12:00, 13:00 – 15:00

Modules:

Module 1: Perineal trauma: Epidemiology, risk factors and preventive interventions

Module 2: Episiotomy: The When, What and How?

Module 3: Obstetric Anal Sphincter Injuries: Recognition and Repair

Module 4: Impact of audit and training on perineal trauma outcomes

Registration:

Registrations are possible until Thursday, February 24th by sending an e-mail application to martin.hammerbauer@ruk.cuni.cz stating the full name, institution, occupation (academic staff/PhD./Master's student) and programme. There are 20 seats available free of charge on a first come, first serve basis.
