

May 2022 DI-SEGNO NERO

What are the radical right's policy proposals for Europe?
In which sectors of society do they have the most grip and why?

Four meetings with experts and four unpublished surveys on **Italy, France, Germany** and **Poland** to look at different ideas of Europe from **four points of observation**: European integration, the rooting of the right among the popular classes, the language that builds consensus, the polarization between East and West

Viale Pasubio 5, Milan
Book [here](#) your place

The meetings can also be followed live streaming on the Facebook page and on the Foundation's website
