Open day for doctoral studies

Open day for doctoral studies

Are you so interested in scientific work that you are thinking about doctoral studies? At the faculty, we have many doctoral programs in the Czech language, during which you can research in individual fields. Join our open door day and ask anything you care about.

You will learn how you can apply, what all study allows, what it takes to study in a foreign language and much more.

The Open Day will be online on the ZOOM platform. Zoom links can be found here .

More information about the doctoral study can be found here .

In case of any problems, do not hesitate to contact Lothar Filip Rudorfer, Lindita Iljazi or Antonín Jančařík.
