

HAWK International Online Conference**Approaches to creative learning
in early childhood education****5th December 2024, 15.00-18.00 (3 to 6 pm) (Central European time)**

Dear Colleagues and Students,

We invite to the next HAWK International Online Conference in the context of international cooperation in ECEC.

As Early Childhood teachers, practitioners and researchers, it is our task to shape learning environments for young children. In a world of polycrises, approaches to creative learning based on children's rights and needs are crucial for fulfilling this task. Against this backdrop, we will discuss experiences and approaches from different ECEC contexts trying to develop quality education for young children towards a sustainable future.

This event is open to all who are interested in educational and care work with children and families. Together with guests from different countries, we want to share experiences and concepts regarding the quality of work with children from an international perspective. The aim is to get into conversation with each other and to think outside the box.

5th December 2024 via zoom**Time Zones**

16.00 – 19.00 Eastern European Standard Time (Greece, Ukraine)

15.00 – 18.00 Central Europe Standard Time (Germany, Austria, Switzerland, Norway)

14.00 – 17.00 Greenwich Mean Time (Ireland)

9 am – 12 am Eastern Standard Time (New York)

Please register per mail to sprachwerkstatt.fs@hawk.de before 24th November 2024.

Please include your full name, mail address, and your affiliation/university!
