
Symposium on Elementary Mathematics Teaching SEMT 2025

Symposium on Elementary Mathematics Teaching SEMT 2025

The Symposium on Elementary Mathematics Teaching is an international scientific conference held every two years since 1991, dedicated to the teaching of elementary mathematics to students aged 5 to 12. The program focuses on the education of students and the training of teachers for this age group. The conference is organized by the Faculty of Education, Charles University. SEMT'25 will be the 18th SEMT conference. The special theme of SEMT'25 is 'Elementary Mathematics: Building Strong Foundations'.
