
Implementation of Pediatric Palliative Care into the Education of Non-Teaching Fields at the PedF UK

Implementation of Pediatric Palliative Care into the Education of Non-Teaching Fields at the Faculty of Education, Charles University

On **April 16, 2025, from 9:30 AM to 12:30 PM**, a round table discussion will take place on the topic of “**Implementation of Pediatric Palliative Care into the Education of Non-Teaching Fields at the Faculty of Education, Charles University**”. This expert discussion is a part of the identically titled project by the **Department of Special Education and the Department of Psychology** and is supported by the **Viček Family Foundation**.

Our goal is to create a platform for a dialogue among the representatives of the **Viček Family Foundation, Motol University Hospital, non-profit organizations Vigvam and Cesta domů, Záhradka Elementary school**, and the project team. The discussion will focus on the key topics related to the challenges of implementing paediatric palliative care education into the preparation and training of psychology or special education students at the Faculty of Education, Charles University.

The event is intended only for project team members and the invited guests.
