
Digital Technologies in Music Education

Digital Technologies in Music Education

We would like to invite you to the **press conference**, where we will present the **multiplatform application Melodica Plus**, developed in collaboration between the Faculty of Education and WERC, s.r.o. The press conference will be followed by a workshop with demonstrations of how to work with this application.

Opening at 10 AM, The Ministry of Education, Youth and Sports, Karmelitská 529/5, Prague 1. From 2 PM a conference of music education named **Digital Technologies in Music Education** will take place. More information on the [website](#) .
