supervisor and the reviewers, responses to the questions from the reports, and a scientific discussion.

Article 84

Assessment of the Defence of Dissertation

(1) After the end of the defence, the board for the defence of dissertation votes in a closed session on the result of the defence. The board has a quorum if at least three members of the board are present, usually including the chair and a member who is not a member of the academic community of the Faculty.

(2) The board votes on the result of the defence of dissertation in a closed session by a show of hands. If any member of the Board so requires, the voting is done by secret ballot. In such a case all voting members tick on voting papers one alternative, either “pass” (“prospěl/a”) or “fail” (“neprospěl/a”). The student is informed of the result by the chair publicly and immediately after the counting of the votes.

(3) The grade “pass” (“prospěl/a”) is approved if a simple majority of the members of the board present voted in its favour. If there is an equal number of votes or the required majority has not been achieved, the student gets the more favourable grade. In other cases, the student failed the defence of the dissertation.

(4) If the student failed to defend the dissertation, the board for the defence of the dissertation determines whether it is necessary to rewrite or to supplement the dissertation.
